16 October

Register at:  
[sverigesungaakademi.se/impact](http://sverigesungaakademi.se/impact)  
Refreshments are included.

Twitter: #humsamimpact

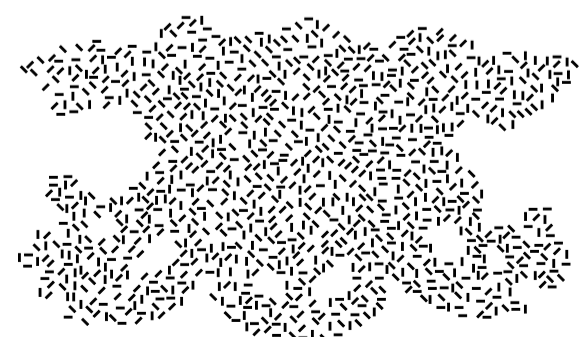

Speakers: **LIZ FISHER**, Professor of Environmental Law, Corpus Christi College, Oxford University, UK, and **ERICA HAIMES**, Professor and Executive Director of the Policy, Ethics and Life Sciences Research Centre, Newcastle University, UK.

Two UK academics will share their reflections on the term's use in recent research evaluations and hope to provoke a discussion about how the term can (or should?) be used. **The Young Academy of Sweden** invites participation from academics, funders and policy makers. Our hope is that this can be a fruitful start to a collaborative way of thinking about research evaluation. **Please join us!**

**THE YOUNG ACADEMY OF SWEDEN** is an independent, interdisciplinary forum for a selection of the most talented young researchers in Sweden within all scientific fields. The Academy enables meetings across disciplinary boundaries, giving rise to unexpected initiatives. Young Academy of Sweden was formed 2011 at the initiative of the Royal Swedish Academy of Sciences and currently has 47 members.
